Working Experiences

Oct 2021 – Jan 2022

Security Analyst Intern | NETASSIST (M) SDN BHD | Kuala Lumpur

- Performed 24/7 L1 SOC monitoring of security alerts using SIEM and intrusion detection systems (IDS)
- Analyzed system logs and network traffic to find possible security issues and unusual activity
- Maintained an up-to-date daily record of IP addresses using Microsoft Excel, ensuring accurate and well-organized documentation

Feb 2024 – Aug 2024

Software QA Intern | BASS SDN BHD | Kuala Lumpur

- Executed manual functional testing on vessel management software to ensure system features met user requirements and maintained software quality.
- Developed and maintained detailed test cases covering multiple user scenarios, helping identify potential defects early in the testing cycle.
- Logged, documented, and tracked bugs using a defect management system, collaborating closely with developers to support faster issue resolution.
- Assisted the QA team in performing regression testing during system updates, ensuring existing functionalities remained stable and minimizing post-release defects.

Dec 2024 – Apr 2025

Sales Assistant | HLA Sunway Pyramid | Subang Jaya

April 2025 – Present

Software Support Consultant | MySoft Cooperation | Cyberjaya

- Installed, configured, and troubleshoot Accounting ERP software in Windows environments for a user base of 250+ across multiple SMB customers
- Helped customers to solve software issue to increase the system reliability.
- Configured client-server networking, including shared folders, IP addressing, and port connectivity
- Customized and generated reports using Crystal Reports based on client requirements
